## Description

Ligth material hightip bucket, designed for handling low density materials e.g. wood chips, park, snow, coal, coke etc. allowed load is up to 1 ton/m<sup>3</sup>. Cylinders has built-in suspension in both sides. Because it is dumped over a special frame, the unloading height is considerably increased. Bolt-on edge. Requires 3rd hydraulic function. All Buckets from H. Serup Olesen A/S can be delivered with Attachment according to the wishes of the customer CE documentation included.
