

A photograph of a wooden crate containing various hydraulic components. The crate is made of light-colored wood and is filled with blue wooden slats. Inside the crate, there are two large metal cylinders with red caps, two solenoid valves with red buttons, and a small metal plate. The components are arranged in a row, with the two large cylinders at the top and the two solenoid valves at the bottom. The small metal plate is positioned between the two solenoid valves. The components appear to be made of metal and show signs of wear and rust.

A photograph of a wooden crate filled with two large industrial valves. The valves are dark grey or black with red-handled actuators. They are positioned vertically inside the crate. The crate is resting on a blue pallet. A white label with the number '23209' and a logo is visible on the side of the crate. Another label with the number '23210' is visible on the side of the crate. The background shows a concrete floor and some other equipment.
