On Board weighing systems

This is the product page of our older [on board scale for wheel loaders]. They have been replaced with a brand new range of systems: [MC 222], [MC 382], [MC 402]. This is the product page of our entry level [on board scale for wheel loaders] [MC 222]. This loader scale is also suitable for forklifts, tele-handlers and compact loaders. We also offer a middle range

bucket scale [MC 382] as well as a top of the line on-board scale [MC 402]. Our entire line of wheel loader scales can be used for a variety of industries including aggregates, mining, quarries, scrap metal, transfer stations, municipalities, agriculture. Our complete [line of scales] all feature dynamic weighing, precision weighing, consistent vehicle loadings, and help you increase productivity and profits by eliminating guesswork when it comes to loadings trucks.
